NEW VARIETY IN THE S27-B ISSUE...

by Lou Fontaine #109 January 2003

While going through some new bundles of S27-B 5 cents coupons, I came across an interesting variety similar to the 10 cents that I reported in the last bulletin. There is a large dot in the black portion of the left and right value diamond. Left side was found in serial number

range of 0200283500 and the right side found in serial number range 0202428200. Shown here is the closeup of both sides. It is coincidental that the exact same style dot is found on this value as well. Inquiries may be directed to lfontaine@shaw.ca on the internet.
