

# DISCOVERIES

by Jerome Fourre #120

From time to time we look through batches of new coupons and find nothing, no varieties, no error, no replacement notes, nothing. Rest assured that this does not discourage me, I think to myself "I am that much closer to that BIG FIND.

The odd time we run into things like the classic example of sloppy printing shown below. I will describe each one to you:

- #1 Top left corner extra ink from the top of the zero and the top of the cent sign to the top border.
- #2 Top left corner extra ink from the top of the zero only to the top border.
- #3 Top left corner extra ink from the top of the one and the top of the zero to the top border.
- #4 Top left corner extra ink from the top of the cent sign only to the top border.
- #5 Top left corner extra ink from the top of the one only to the top border.
- #6 Top left corner extra ink smudge through the zero into the top border.
- #7 Bottom right corner extra ink from the top of the zero only to the top of the box.

- #8 Bottom right corner extra ink from the top of the zero and the one to the top of the box.
- #9 Bottom right corner extra ink from the top of the one only to the top of the box.
- #10 Top right corner extra ink from the top of the zero only to the top border going left.
- #11 Top & bottom right extra ink from the top of the zero only to the top border going left on the top and extra ink from the top of the zero only to the top of the box.
- #12 Top left corner line in red ink from the top left corner of design to the left border.

I do not know how common these notes are. This particular batch was found in the CTC S27-C series between 0221905nnn and 021907nnn. The #6 and #12 are from another range 0221649nnn.

Anyone interested in procuring some of these varieties (# 1 to #11) for their personal collection, send me \$6.00 and I will send 5 different. The #6 is unique, which means I have no spares of this one and some of the others are available only in small quantities. The #12 is available separately @ \$2.00 each. Send payment to Jerome Fourre, 1120 Place Charron, Blainville, Quebec, J7C 2T2.
