I hope this information will be of assistance to many of you in forming a base for your own collection. Please contact me if you have some notes on this value that may be helpful in proving or disproving the information contained herein. The only discrepancies I found were in the "Missing period after business" variety where I found 2 notes outside of the ranges and the "Short T" where I found no coupons in a particular range. I suspect they started in the ranges stated, then sometime early during the printing process something happened to skewer the range and then resumed normally.

Ranges in bold italics are ranges that I have seen or have in my possession. You will notice that the gap between Short P and Break between A & S varieties is 50,000 notes.

\*It is possible that the range of 10,000 notes with the variety will not all have it, so the quantity of 400,000 for each variety is subject to scrutiny.

E-mail me at [lfontaine@shaw.ca](mailto:lfontaine@shaw.ca) if you have inquiries or [fontaine2@shaw.ca](mailto:fontaine2@shaw.ca) if you have attachments.
