

## Discoveries

by Chris Wood #681

Here are a couple of coupons to add to the "hunt" for varieties. The 1st is a CTC 8C- 25¢ similar to the Type 7 of the Atlantic variety. This one is more to the left than the one shown in Volume 2 of the Bilodeau Guide.

The next one is a CTC 8D-50¢ with a dot between the words "AT" and "CANADIAN" in the lower left corner. Other dots are known on the border and signatures, but this is the first reported in this area.

If you wish to report any similar finds please contact me: Chris Wood #681 radnorfarm@hotmail.com

## Updated High Low list on the S27 Issue...

by Lou Fontaine #109

The S27 Issue is very interesting in that there are so many changes taking place. We now have dated coupons on both normal and replacements on all values. Printing errors occur from time to time, so catching these is mostly a fortunate circumstance. Replacements can appear anywhere so when making gas purchases it is lucky indeed to get a replacement in a sequence. Occasionally older dated coupons appear in a current series range which are called Same number replacements. The printing of the serial number is different than on normally printed coupons. On 2 occasions so far I have found replacements in a sequence associated with a same number

replacement. It has also occurred in normally printed ranges in the 5 cent and 10 cent value as shown in the High/Low list. For specific info see High Low list on following page.

It is not so bad collecting one of each but can be very challenging in a specialized High Low collection. If anyone has coupons that can update this info it would be appreciated.

To give you an idea of what would complete a basic collection see table below. If you are buying gas or visiting the store these coupons are very easy to get except for some replacements, a very inexpensive series generally.

Denomination	Quantity	Years
5 cents	4	2002, 2003, 2004 2005
5 cent Replacement	3	2002, 2004, 2005
10 cents	4	2002, 2003, 2004, 2005
10 cent Replacement	3	2002, 2003, 2004
25 cents	2	2004, 2005
25 cent Replacement	1	2004
50 cents	2	2003, 2004
50 cent Replacement	1	2003
<b>Total</b>	<b>20 coupons</b>	

With this issue you never know what to expect so be prepared for more surprises. More issues are imminent.
