

White Triangle Variety (bwt)

by Don Bradt #150

There are some CTC S27 coupons that have a white triangle protruding from the left denomination diagram on the back of the coupon. This variety was first reported in Volume 15, Number 1 of the Newsletter. Since then a few more coupons have been found and Jerome "eagle-eye" Fourre found

25¢ & 50¢ coupons of this variety. I would like to hear from collectors interested in this variety so that I can compile a more complete list of serial numbers and then estimate the quantities for each year and denomination. If you're interested, I would like the denomination, the year (back plate) and the serial number.
