

Sandy McTire High & Low Number Study

by Don Robb #003 & Lucien Levesque #479

In the April 2003 issue of "The Collector" I asked that CTCCC members who possessed Sandy McTire coupons help us to develop High and Low numbers for each of the coupons in the Sandy McTire series. Although I am a little late in publicly thanking those who responded, I now offer my thanks to the 8 dedicated collectors who helped. The survey results were combined with some of the data used when the initial cataloging was completed in 1992. Even then I believed the results to be inconclusive. The information, however, has been passed along to the Lucien Levesque of Bilodeau Guide Committee for insertion in the next edition.

One idea is that it could be used as a basis for a further study. I know that there is a great deal of information in the hands of our members. We are left with the challenge of finding out how to gather it. Lucien has taken the step of entering it all into a spreadsheet which we are publishing below in the hopes that members will try to better the information we have. This the first attempt with the Sandies and we are confident that more info will come at a faster pace than the replies I had to my previous requests. Please forward your highs and lows to Lucien Levesque, 13285, rue de la Bourgogne, Mirabel, Québec, J7J 1P9 or at llev@videotron.ca
