Single Hair Curl
CTC S4-B-fcl-s

AM & TN

There are 20 different ranges of Curls in the CTC S4B (fcl) series. I have attempted to show them above. As you can see there is usually 5000 per range but some of the ranges do not follow that rule and have less. The AM245XXXX range is suspected to have 5000 in it but only one note is known.

By using Lou Fontaine's master high - low list available on the CTCCC web site, I have estimated that there are 46,000 Double and about 36,500 Single Curls. There is no rhyme or reason to the Single & Double Curls other than to say that they are known in all ranges including the TN series, the only exception is the AM 245XXXX range where the only one known is a Single Curl.

CTC S11-C REGULAR AND FAINT TOOTHPICK VARIETIES

by Lucien Levesque #479

Faint Straw Toothpick

Straw Toothpick

No.	Prefix	Denom	Quantity
CTC S11-C-fwt	E	10¢	200,000
