CTC-S11 SQUARE NUMBER SERIES
by Don Robb #003

At the CTCCC meeting during the 2006 O.N.A. convention in April, I made a presentation about this series using the following listing of my collection.

It has taken many years to build this collection and the challenge to add to it continues. Perhaps by going public I can add to the research of this series.

See the known ranges below.

Thank You in advance for your help. It would be appreciated if you could let me know if you have any Square Number coupons that are not included in this list. You can contact me by telephone: 519-888-9655, or by e-mail: drr@rogers.com.

Also if your serial numbers could be considered as a high or low, please forward the information to Lou so that he can keep the Master List up to date. His address is Louis Fontaine, 86 Morris Drive, Saskatoon, SK S7L 3V2 or email : fontaine2@shaw.ca or phone (306) 382-7216
