

Interesting Variations in the 5 cent H-G Gas Coupons

by Don Bradt

Several months ago I happened to notice a "plain S" (no serifs) five cent gas coupon in the CTC 10 (Charlton CT-8) series (H-G signatures).

Since that time I have looked through many thousands of gas coupons but have not found another nor have I found any other "plain" prefixes in the other CTC 10 denominations.

The serial number of the coupon is S 8150499 and the closest I have come to bracketing the coupon is S 8150480 from below and S8150505 from above.

It is interesting to note that it is in the same approximate serial number range that I have found a number of CTC 10-A (CT-8-1) with a large white smear on the wavy line border in serial number S 8150XXX and S 8152XXX.

I would be interested to hear from anyone who has found anything similar in the H-G CTC 10 (Charlton CT-8) series.
