

SANDY McTIRE UP-DATE

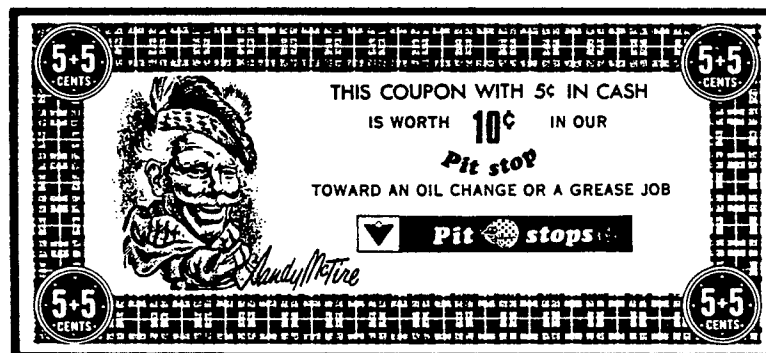

by Don Robb

Two new discoveries have been acquired and they should be added to your Sandy McTire listings as follows:

PS1B-30Z Black Z Yellow Helmet Green

PS2B-10-2 Black - Blue Clear Blue

It is also possible to announce a significant discovery by Ross Irwin of Guelph in the "Pit stops with No Serial Numbers" Series. This difference in coupons simply went unnoticed until now and I thank Ross for this information.

The photostat below shows the difference. Please focus on the spelling of "Pit stop" in the black rectangle beside the Sandy McTire signature. There is no "s" in the top coupon.

To date we know that this difference exists only in the "Pit stops with No Serial Numbers" coupons in the 5, 10 and 20 cent denominations. Before listing numbers are assigned I need to know:

- (1) Why this difference in spelling occurred. Was the omission of the "s" simply an error?
- (2) Does this difference also occur in the 30 and 40 cent denominations?
- (3) Does this difference exist in any of the "Pit stops with Serial Numbers" coupons?

Please send information to me at: Box 22062, Westmount RPO, Waterloo, Ontario N2L 6J7, or call me at (519) 888-9655. Thanks for your help.
