

LOOKING FOR INFORMATION

by Don Robb

An interesting discovery! I want to hear from other collectors who can help me understand why there is a 21 mm width between Serial Numbers on one S4 \$1.00 coupon, and a 35 mm width on regular issue coupons, including the known replacement coupon. All of this is shown on the photostat below. It should be understood that the coupon with the 21 mm width is extremely rare based on my present knowledge.

Could it be different form of replacement coupon? Please send information to me at: Box 22062, Westmount RPO, Waterloo, Ontario N2L 6J7, or call me at (519) 888-9655. Thanks for your help.

CTCCC North York Auction in October 93

LOT	QTY	DEN.	CATALOG #	DESCRIPTION	GRADE	RES.	SOLD
