

## CTC S11-C 25¢ coupons

by Jerome Fourre

We know that the British American Banknote Company (BABN) printed the CTC S10-C 25¢ series with the red serial numbers starting with serial number J 0000001 and went to approximately J 0999999. The CTC S11-C 25¢ series of coupons printed by the BABN started at approximately J 1000000 where the S10 series left off and went up to approximately J 8540000 at which point, having lost the contract for CTC coupons to their rival the Canadian Banknote Company (CBN), the BABN gave this figure to the CBN. The CBN then started the CTC S13-C 25¢ at approximately C 08540000. For some unknown reason the BABN printed approximately another 800 000 coupons in the CTC S11-C 25¢ series after having already given the cutoff serial number of this series as J 8540000 to the CBN. They started the "J" series over again and numbered them from J 0000001 to approx. J 0800000.

I am looking for any coupon in the CTC S11-C 25¢ series (black serial #s) between J 0799823 and J 1004340. I am also looking for any coupon in the CTC S10-C 25¢ series (red serial numbers) after J 0998390. If you have any coupons in these ranges please get in touch with me, I would be interested in purchasing or trading for them (the condition of the coupon is not important). Thank you in advance. Send info to Jerome Fourre, P.O. Box #74, New Glasgow, Quebec J0R 1J0.
