

Coupons with Different Prefixes

by Don Bradt

A few of the CTC S11-B (Charlton CT27-2-3 or CT27-2-4) 10¢ coupons have been found with an "E" prefix on the left side and an "F" prefix on the right. NO! the "E" on the left is not an "altered F". I believe this error was first discovered by Ross Irwin a year or two ago. See an example of this error below.

Once I knew of their existence, I began looking for this error. So far I've found two of them (one of which I traded) and I've also been trying to bracket them. I also have a few serial numbers of coupons belonging to other collectors. I don't have a good normal high for the "E" prefix. The following sums up what I know about them:

Normal E3474036	Normal F3476825	
Left Ser No	Right Ser No	Coupon Owner
E 3476602	F 3476602	Ross Irwin
E 3476952	F 3476952	Jerome Fourre
E 3477476	F 3477476	Don Bradt
E 3477668	F 3477668	???
E 3478784	F 3478784	???
Normal E-----	Normal F 3477113 F 3477370 F 3477601	

Note that all four of my "bracketing" coupons for the "F" prefix are within the range. I kept them originally because they were all bracketing coupons for the first coupon I found. Because of the normal embedded "F" prefix coupons it seems clear that the error occurred while printing the "E" prefix and that there are about 2,000 of them out there. Hopefully more will turn up.
