

RECENT DISCOVERIES

by Jerome Fourre

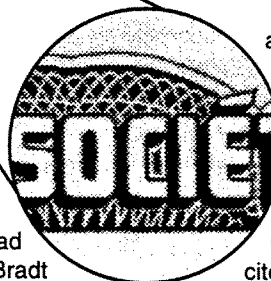

Bill Cuff noticed that the "J" seemed different on some of his stash of CTC 7-H-40¢ notes and was able to pinpoint these three distinct sizes illustrated to the right. He then brought them to the attention of our "Variety Master" Don Bradt who in turn brought them to my attention.

It would be appreciated if you could go through your stash, jot down the serial numbers and mention which "J" they resemble and send the information to Don Bradt, 2051 Beaverhill Drive, Gloucester, Ontario, K1J 6N9 E-mail : dbradt@cyberus.ca ☐

The following CTC S8 A-AZ 5¢ note was found by fellow member Alain Cédilotte. He was looking through some coupons when he noticed that this note could not be found in the Bilodeau GUIDE he had just purchased. He asked me about it and I told him it would need further investigation.

After having a closer look, I realized that yes, he had found a note that was not catalogued. I contacted Don Bradt

and sure enough after sorting through his stash he found two of them. The one shown is # AZ 9966219. Don's serial numbers are AZ 9312933 and AZ 9452946. If you could check your stash and get back to me, I will do a follow-up article. Jerome Fourre, P.O. Box 21, New Glasgow, Quebec, J0R 1J0 E-mail : jayfourre@citenet.net ☐
