

EXTRA GAS BAR VARIETIES - PACIFIC REGION

by Don Bradt #150

This is a continuation of the "Extra Gas Bar Varieties" that appeared in the previous newsletter. This one is about varieties in the Pacific region of the map.

The more common varieties are described in Volume II of the Bilodeau Guide. For a variety to make the Guide there has to be at least 3 known examples and there has to be a fair range in the serial numbers. There were quite a few varieties that I catalogued that didn't pass the above rule of thumb.

You probably will need to refer to Volume II to make sense of the variety names and grid numbers (grid #'s). The grid #'s are in the square boxes in each picture.

I'm hoping that people will examine their collections and search for the following coupons. If we can find extra examples, we may be able to add them to the guide. All pictures are enlarged 4 times.

Here are some of the coupons in my collection that didn't pass the test. If you find any of these would you contact Don Bradt, 2051 Beaverhill Dr, Ottawa ON K1J 6N9 or email: DonBradt@rogers.com.

ELECTIONS 2012

The results of the voting are in and congratulations to Lucien Levesque, he has been elected to the position of 2nd Vice President. Thank you to all that took the time to fill out the ballot and send it in.
